

DESIGN OUR DESCASIO AVATAR

Create an avatar to be the face of Descasio. This isn't just a cool picture, it's a digital version of what Descasio stands for: bold, smart, and focused on Africa's future.

✓ KEY CRITERIA

1. BRAND AND COLOURS

- ▶ **Our Colors:** Make sure the avatar uses our brand colors.
- ▶ **The Logo:** Try to work the Descasio logo into the design. It could be on the avatar's chest or even a floating holographic "heart."

2. VALUE AND PERSONALITY

- ▶ **Innovation:** E.g Add things like glowing circuits or floating data screens to show we're always looking at what's next.
- ▶ **Leadership:** Give the avatar a "visionary" feel. It should look like it's looking toward the horizon, leading the way.
- ▶ **Customer-Centric:** We're here for real people. Give the avatar a friendly face or a welcoming pose—maybe it's reaching out to help or shake a hand.
- ▶ **Expert but Friendly:** The avatar should look sharp and professional but it should have a warm, helpful energy.

3. PROMPT DETAIL

- ▶ Put enough thought into the instruction. Give the AI clear instructions and specify keywords.
